1. IDENTIFICATION OF SUBSTANCE/ MIXTURE AND OF THE COMPANY:

1.1. Product identifier: Aquaseptic Orange
1.2. Relevant identified uses of the substance or mixture and uses advised against
Use of the substance: Antiseptic for healthy skin.
Spanish Ministry of Health register:
Register num. DGFyPS: 763-DES
1.3. Details of the supplier of the safety data sheet
Manufacturer: VESISMIN S.L. C/Lluçà, 28 5º – 08028 Barcelona (Spain).
vesismin@vesismin.com
Telephone number: +34 934 095 301
Fax: +34 933 396 628
e-mail: vesismin@vesismin.com
1.4. Emergency number: +34 934 095 301 (working hours)

2. HAZARD IDENTIFICATION

2.1. Classification of the substance or mixture
Classification according to CE Regulation num. 1272/2008 [CLP]
EYE IRRITATION. Category 2 (H319)
CHRONIC AQUATIC. Category 3 (H412)

2.2. Label elements: according to CE Regulation num. 1272/2008 [CLP]
Hazard pictograms:

Signal word : ATTENTION
Hazard statements:
• Causes serious eye irritation (H319)
• Harmful to aquatic life with long lasting effects (H412)
• To avoid risks to human health and the environment, comply with the instructions for use (EUH 401)

Precautionary Statements
• Keep out of reach of children (P102)
• Avoid release to the environment (P273)
• IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. (P305 + P351 + P338).
• If eye irritation persists: Get medical advice/attention (P337+P313).
• Dispose of contents and container in accordance with local regulations (P501)

2.3. Other hazards
No significant environmental or health risks if used under standard conditions of commercial and industrial use.

PBT: This product is not identified as PBT/vPvB

3. COMPONENT COMPOSITION / INFORMATION

3.2. Substance/Mixture: Mixture

Complete text of hazard statements indicated in this Section are explained in Section 16.

4. FIRST AID MEASURES:

4.1. Description of first aid measures

First aid measures:

Swallowing: (*) Rinse mouth with water and seek immediate medical assistance. If the patient is conscious, supply water.
Inhalation (ethanol): Transfer the victim to a non contaminated atmosphere. In case of breathing interruption, apply artificial respiration. Maintain the patient in repose and seek medical advice.
Eye contact: Wash with plenty of water for at least 15 minutes. If irritation persists, consult an ophthalmologist.

(*) Medical information: do not induce vomiting. Perform a stomach-pumping previous to adding dimeticone (antifoam).

4.2. Most important symptoms and effects, both acute and delayed

Effects and symptoms: No specific effects and/or symptoms are known.
Eye contact: significant irritation is not expected
Skin contact: a significant or prolonged irritation by skin contact is not expected. Systemic adverse effects by contact or absorption through the skin are not expected. Avoid contact with eyes, middle ear (risk of perforation of the eardrum if the product reaches in great amounts the external conduit, with possibility of neurosensorial deafness) and meninges.

4.3. Indication of any immediate medical attention and special treatment needed

See section 4.1.
5. FIRE-FIGHTING MEASURES

5.1. Extinguishing media
Suitable extinguishing tools: Foam, dry chemical powder, CO₂, sand and water spray fog.

5.2. Special hazards arising from the substance or mixture
Special hazards of fire/explosion: The combustion or thermal decomposition releases toxic fumes. Evacuate the area

Special measures: Store used water for its later disposal. The disposal must be done according to local or national regulation. Contain the liquid and avoid the penetration into drains and water course. Contain all the material used in the fire fighting.

5.3. Advice for fire-fighters
Special protective equipment for fire-fighters: Fire-fighters must be provided with adequate protective equipment, and respiratory equipment.

6. ACCIDENTAL RELEASE MEASURES:

6.1. Personal precautions, protective equipment and emergency procedures
Personal precautions: Take common precautions. Use adequate protective cloths, gloves and eyes/skin protection. Contaminated clothing must be cleaned thoroughly.

6.2. Environmental precautions
Environmental precautions: Eliminate the spilled product with materials that act as absorbents (sawdust, peat, or chemical chelating agents). Place the collected product in containers that can be closed. The disposal must be done according to local or national regulation. Ventilate the area and clean the zone once the spillage is collected.

6.3. Methods and material for containment and cleaning up
Cleaning measures: Do not release product into drainpipes or in the environment. Eliminate the spilled product with materials that act as absorbents (sawdust, peat, or chemical chelating agents). Place the collected product in containers that can be closed. Clean floors and all objects with this material using a damp cloth. Collect the cleaning materials and place them inside containers that can be closed. Ventilate the area and clean the zone once the spillage is collected.

6.4. Reference to other sections
Refer to sections 8 and 13 of SDS.

7. HANDLING AND STORAGE
7.1. Precautions for safe handling
Handling: Take measures to avoid splashing in the eyes.

7.2. Conditions for safe storage, including any incompatibilities
Storage: Store in high density polyethylene or PET containers. Keep away from direct sunlight and other heat or ignition sources. Keep the container well closed and in a cool and well ventilated place. Store only in the original containers. Do not keep at temperatures higher than 25°C. Avoid freezing.

7.3. Specific end use(s)
Antiseptic for healthy skin. For professional use only.

8. EXPOSURE CONTROLS/PERSONAL PROTECTION

8.1. Control parameters
Non applicable.

8.2. Exposure controls
Hygienic measures: Do not eat, drink or smoke during use.
Exposure control: Avoid spilling, contact with eyes and ingestion.
Equipment to provide adequate personal protection: Non specific protection equipment is required.

9. PHYSICAL AND CHEMICAL PROPERTIES

9.1. Information on basic physical and chemical properties
Aspect: Transparent liquid in orange colour
Odour: characteristic
pH: 4.5-6.5 (20 ºC)
Solubility in water: 100% soluble (20 ºC)
Density: 0.80 – 1.20 g/cc (20 ºC)
Flammability: Non flammable

9.2. Other information
Not applicable

10. STABILITY AND REACTIVITY

10.1. Reactivity: Keep away from heat and direct sunlight. Keep away from direct flames and sources of ignition. Keep away from oxidisers.

10.2. Chemical stability
Product is stable in recommended conditions of handling and storage.

10.3 Possibility of hazardous reactions
It does not present.
10.4. Conditions to avoid
Non applicable

10.5. Incompatible materials
**Materials to avoid:** Considering the cationic character of Chlorhexidine salts, these are chemically non-compatible with anionic compounds. Keep away from sulphates, borates, bicarbonates, chlorides...

10.6. Hazardous decomposition products
Combustion or thermal decomposition release toxic fumes.

11. TOXICOLOGICAL INFORMATION

11.1. Information on toxicological effects
**Acute toxicity:**
- Oral route: Not harmful by oral ingestion. DL$_{50}$ (oral route) > 2000 mg/kg
- Through skin and/or eyes:
  * Skin irritation: Not irritating.
  * Eye irritation: Not irritating to eyes.
  * Skin sensitisation: It does not cause hypersensitisation.

**Corrosiveness:** Not corrosive.

**Carcinogenicity:** Not carcinogenic

**Mutagenicity:** Not mutagenic

**Toxicity for reproduction:** Not toxic for reproduction

12. ECOLOGICAL INFORMATION

12.1. Toxicity:
In order to avoid human and environmental risks, follow the instructions for use.

12.2. Persistence and degradability
The product has powerful microbidial action, hence it could affect the EDAR microbial flora.

12.3. Bioaccumulative potential
Not available.

12.4. Movility in soil
Not available

12.5. Results of PBT and vPvB assessment
This product is not identified as a PBT/vPvB substance

12.6. Other adverse effects
Harmful to aquatic organisms

Chlorhexidine digluconate (active ingredient – concentrated. The product contains 2% of this ingredient):
Toxic to fish, daphnia and algae. LC50 (fish, 48h) = 13.4 mg/l. EC50 (Dpahnia magna, 48h) = 0.087 mg/l. EC50 (algae, 72h): 0.081 mg/l.

13. DISPOSAL CONSIDERATIONS

13.1. Waste treatment methods
It is recommended to package product surplus or waste resulting from normal use. Label it for identification purposes and seal it. Dirty, empty recipients should be handled in the same manner. The product may be taken to a controlled incineration site, always according to local regulations.

14. TRANSPORT INFORMATION

14.1. UN number
Not applicable
Road/Train transport (ADR/RID): not applicable
Sea transport (IMDG): not applicable
Air transport (IATA): not applicable
The substance is not dangerous for transport (European Agreement on International Transport of Dangerous Goods)

14.2. UN proper shipping name
Not applicable.

14.3. Transport hazard class(es)
Not applicable

14.4. Packaging group
Not applicable

14.5. Environmental hazards
Not applicable

14.6. Special precautions for user
Not applicable

14.7. Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code
Not applicable

15. REGULATORY INFORMATION

15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture
The information for safety and health with respect to the label of this product is in accordance with the European Union regulation: nº 1907/2006, 453/2010 and 830/2015.
European legislation: Regulation (EC) nº 1272/2008

15.2. Chemical safety assessment: not required

16. OTHER INFORMATION

**Other information:** The text in the SDS which has changed since the last version.

**Complete text of hazard statements as referred to in sections 2 and 3:**
- H318: Causes serious eye damage.
- H319: Causes serious eye irritation.
- H400: Very toxic to aquatic life.
- H412: Harmful to aquatic life with long lasting effects

**Formation advice:**
The product must be handled by specialized personnel, following manufacturer instructions.
Changes from last version refer to format and content of EC Regulation 453/2010. Calculation method determination according to Regulation (EC) 1272/2008 has been used for the classification of the mixture.
