1. IDENTIFICATION OF SUBSTANCE / MIXTURE AND OF THE COMPANY:

1.1 Product identifier: NDP Surfaclin
1.2. Relevant identified uses of the substance or mixture and uses advised against
Product classification / Register Number: Medical Device Type IIa. CE mark, given by ON
0476, number: MED 31348
1.3. Details of the supplier of the safety data sheet
Manufacturer: Vesismin S.L. C/Lluçà, 28 5º – 08028 Barcelona vesismin@vesismin.com
Telephone number: +34 934 095 301
Fax: +34 933 396 628
e-mail: vesismin@vesismin.com
1.4. Emergency number: +34 934 095 301 (working hours)

2. HAZARDS IDENTIFICATION:

2.1. Classification of the substance or mixture
Regulation (CE) 1272/2008_CLP
ORAL ACUTE TOXICITY, category 4 (H302)
SKIN CORROSION, category 1A (H314)
EYE IRRITATION, category 1 (H318)
SKIN SENSITIZING, category 1 (subcategory 1A) (H317)
HAZARDOUS TO THE AQUATIC ENVIRONMENT – CHRONIC HAZARD. Category 2 (H411)

2.2. Label elements: according to CE Directives
Regulation (CE) 1272/2008_CLP

Signal Word: Danger

Hazard statements:
- Harmful is swallowed (H302)
- Causes severe skin burns and eye damage (H314)
- Causes serious eye damage (H318)
- May cause an allergic skin reaction (H317)
- Toxic to aquatic life with long lasting effects (H411)

Precautionary statements:
- Wash the skin thoroughly after handling (P264)
- Do not eat, drink or smoke when using this product (P270)
- Wear protective gloves/protective clothing/eye protection/face protection (P280)
- Avoid release to the environment (P273)
- IF SWALLOWED: rinse mouth. Do NOT induce vomiting (P301+P330+P331)
- IF ON SKIN (or hair): Remove/Take off immediately all contaminated clothing. Rinse skin
MATERIAL SAFETY DATA SHEET
Product: NDP Surfaclin

with water/shower (P303+P361+P353)
• If skin irritation or rash occurs: Get medical advice/attention (P333 + P313)
• Wash contaminated clothing before reuse (P363)
• IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing (P305+P351+P338)
• Collect spillage (P391)
• Immediately call a POISON CENTER/doctor/… (P310)
• Dispose of contents and/or container in accordance with dangerous residues regulations (P501)

2.3. Other hazards
No significant environmental or health risks if used under standard conditions of commercial and industrial use.
The concentrated product is harmful if swallowed, causes severe skin burns and eye damage and may cause an allergic skin reaction. It is not dangerous at use dilutions.
Effects of the product misuse: eye and skin splashes (irritation), intoxication (oral intake). We recommend the use of gloves and googles for concentration product handling and dilutions preparation.

PBT: This product is not identified as PBT/vPvB

3. COMPONENT COMPOSITION / INFORMATION

3.2. Substance/Mixture: Mixture

*Complete text of H-phrases indicated in this Section are explained in Section 16.

4. FIRST AID MEASURES:

4.1. Description of first aid measures
First aid measures:

Swallowing: (*) Rinse mouth with water and require immediately medical assistance.
Do not administer anything to an unconscious person.
Inhalation: Not applicable, it doesn’t release vapours.
Skin contact: Take off contaminated clothes. In case of skin contact, wash with plenty of water & soap, and seek for medical advice.
Eye contact: Wash with plenty of water for at least 15 minutes. If irritation persists, consult an ophthalmologist.
4.2. Most important symptoms and effects, both acute and delayed

**Effects and symptoms:** No specific effects and/or symptoms are known

4.3. Indication of any immediate medical attention and special treatment needed

**Therapeutic advice:** In case of ingestion, consider making an endoscopy. Symptomatic treatment. See section 4.1.

5. **FIRE-FIGHTING MEASURES**

5.1. Extinguishing media

**Suitable extinguishing media:** Foam, dry chemical powder, CO₂, sand and water spray fog.

**Extinguishing media that do not have to be used for safety reasons:** Not applicable.

5.2. Special hazards arising from the substance or mixture

**Special exposure hazards arising from the substance or preparation itself, combustion products, and produced gases:** Non flammable product. In case of fire of great magnitude, amine vapours could be generated.

5.3. Advice for firefighters

**Special protective equipment for fire-fighters:** Fire-fighters must be provided with adequate protective equipment.

6. **ACCIDENTAL RELEASE MEASURES:**

6.1. Personal precautions, protective equipment and emergency procedures

**Personal precautions:** Take common precautions

6.2. Environmental precautions

**Environmental precautions:** Avoid pouring the product into the public drainage. If the product reaches a river course or a sewer, or it has contaminated the soil or vegetation, warn the Authorities. Collect it in plastic containers and eliminate it in appropriate places.

6.3. Methods and material for containment and cleaning up

**Cleaning measures:** Do not release product into drainpipes or in the environment. Eliminate the spilled product with materials that act as absorbents (sawdust, peat, or chemical chelating agents). Place the collected product in containers that can be closed. Clean the floor and all objects with this material using a damp cloth. Collect the cleaning materials and put them inside receptacles that can be closed.

6.4. Reference to other sections

Refer to sections 8 and 13 of SDS.

7. **HANDLING AND STORAGE**

7.1. Precautions for safe handling

**Handling:** Take measures to avoid splashing in the eyes and on skin.
7.2. Conditions for safe storage, including any incompatibilities

**Storage:** Store in high density polyethylene containers. Store at room temperature and avoid extreme temperatures and direct contact with sunlight. Store at an optimal temperature between 10° and 30°C. Store only in original containers.

7.3. Specific end use(s)
Surface disinfectant. For professional use only.

---

**8. EXPOSURE CONTROLS/PERSONAL PROTECTION**

8.1. Control parameters
Non applicable

8.2. Exposure controls

**Hygienic measures:** Do not eat, drink or smoke during use.

**Exposure control:** Avoid spilling, contact with eyes and ingestion.

**Equipment to provide adequate personal protection:** Hands protection (safety gloves) and eye protection (safety goggles).

---

**9. PHYSICAL AND CHEMICAL PROPERTIES**

9.1. Information on basic physical and chemical properties

**Aspect:** Liquid, transparent without colour
**Odour:** Perceptible
**pH (100% in water):** 4 – 6 (20 °C)
**Water solubility:** 100% soluble
**Density:** 0.900 – 1.100 g/cc (20°C)
**Boiling point:** 97 – 102°C
**Flammability:** Non-flammable

9.2. Other information
Not applicable

---

**10. STABILITY AND REACTIVITY**

10.1. Reactivity
It does not present dangerous reactions. It does not react with acids, bases, oxydating agents, organic peroxides or heavy metals. Unstable in presence of strong oxidizers or alkalins. It is not corrosive on different materials.

10.2. Chemical stability
Product is stable in recommended conditions of handling and storage.

10.3 Possibility of hazardous reactions
It does not present.

10.4. Conditions to avoid
Non applicable

10.5. Incompatible materials
Do not use or mix with products containing or that release chlorine (hypochlorites) and products that contain anionic surfactants.
10.6. Hazardous decomposition products
Non applicable.

11. TOXICOLOGICAL INFORMATION

11.1. Information on toxicological effects

Acute toxicity:
Oral route: Harmful by oral ingestion. (ref. DL$_{50}$ (oral route in rodents): 300 - 2000 mg/kg
Inhalation route: Not applicable.
Through skin and/or eyes:
*Skin irritation: The concentrated product is skin corrosive. At use concentrations (2%) it is not irritating.
*Eye irritation: The concentrated product can cause severe eye damage. At use concentrations (2%) it does not irritate the eyes.
*Skin sensitisation: It does not cause hypersensitisation.

Carcinogenicity: Not carcinogenic
Mutagenicity: Not mutagenic
Toxicity for reproduction: Not toxic for reproduction

12. ECOLOGICAL INFORMATION

12.1. Toxicity: Chronic aquatic toxicity:
The product is toxic to aquatic life with long lasting effects
In order to avoid human and environmental risks, follow the instructions for use.

12.2. Persistence and degradability
The product has a high bactericide and fungicide action, hence it could affect the EDAR microbial flora.
It is a surfactant and can cause foam in EDAR.

12.3. Bioaccumulative potential
Not available.

12.4. Movility in soil
Not available

12.5. Results of PBT and vPvB assessment
This product is not identified as a PBT/vPvB substance

12.6. Other adverse effects
Harmful to aquatic organisms

13. DISPOSAL CONSIDERATIONS

13.1. Waste treatment methods
Package product surplus or waste resulting from normal use. Label it for identification purposes and seal it. Dirty, empty recipients should be handled in the same manner. The product may be...
14. TRANSPORT INFORMATION

14.1. UN number
3082

14.2. UN proper shipping name
Environmentally hazardous substance, liquid, n.o.s. (contains Bis-3 (aminopropyl)dodecylamine)

14.3. Transport hazard class(es)
Class 9

14.4. Packaging group
Packing group III

14.5. Environmental hazards
Toxic to aquatic life with long lasting effects

14.6. Special precautions for user
Not applicable

14.7. Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code
Not applicable

For road transport (ADR) special provision 375 is used (these materials when transported in single or combined packaging containing a net quantity per inner or individual packaging of 5 liters or less for liquids or of 5 kg or less for solids, are not subject to any other provision of the ADR).

For maritime transport (IMO), special provision 2.10.2.7 is also used for 5L containers.

For air transport (IATA), provision A197 is used for the same reason.

15. REGULATORY INFORMATION

15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture
The information for safety and health with respect to the label of this product is in accordance with the European Union regulation: nº 1907/2006, 453/2010 and 830/2015.

**European legislation:** Regulation EC 1272/2008.

15.2. Chemical safety assessment: not required

16. OTHER INFORMATION

**Other information:** The text in the SDS which has changed since the last version.

**Complete text of hazard statements as referred to in sections 2 and 3:**

- H226: Flammable liquid and vapour.
- H302: Harmful if swallowed
- H312: Harmful in contact with skin.
H314: Causes severe skin burns and eye damage
H315: Causes skin irritation
H317: May cause an allergic skin reaction.
H319: Causes serious eye irritation
H410: Very toxic to aquatic life with long lasting effects

Formation advice:
The product must be handled by specialized personnel, following manufacturer instructions. Changes from last version refer to format and content of EC Regulation 453/2010. Calculation method determination according to Regulation 1272/2008 has been used for the classification of the mixture.
